

# Co-Ordinator Training

## Co-Ordinator System Administration

### The Overview

This course is largely instructor-led training with some opportunity for hands-on experience in administering the resources of the Co-Ordinator system.

### Objectives

With the aid of a Co-Ordinator server, this course furnishes the training delegate with the knowledge to:

- Add, edit and delete new Inca/Inca2-containing vehicles to the Co-Ordinator system
- Assign vehicle types
- Present text for Input and Output and Status triggers
- Assign alarms to selected statuses
- Group of vehicles and forced data retrieval by group
- Add, editing and deleting users of the Co-Ordinator map client and Administrator program
- Assign user permissions
- Reset passwords

### Target Audience

APD Communications recommends this course to people responsible for the input of radios, vehicles, the divisions and vehicle types therein and users of the Co-Ordinator map client and administration panel. In the Police environment, these may include Airwave radio installers or resource management staff.

### Pre Requisites

Before attending this course, candidates should have:

- A working knowledge of their environment
- Access to identifiers such as call signs, VRNs, vehicle types, OCU information, radio ISSIs and names of the Co-Ordinator system users
- Knowledge of the INCA is preferable but not essential

### Course Detail

This training session is normally delivered as part of a new installation or, if appropriate, as part of user training though it can be delivered as a standalone session.

Course duration: Half day

Optimum training number: Four people

Best delivery location: Customer site, training room or Incident Room.

Public course: Yes, delivered at APD Communications' office

Associated courses: Co-Ordinator User Training
