

Mobile ID Unit Training

MIU Device User

The Overview

This course provides the Police training delegate with sufficient knowledge to go out into the community and responsibly carry out stop checks, driver detail checks, scan passports or use manual entry to check with PNC, DVLA and QAS databases to obtain information regarding the individual stopped.

Objectives

Delegates will be shown how to:

- Login and authenticate themselves with the system
- Scan passports to populate the search fields
- Complete individual and multiple Police National Computer searches
- Complete vehicle registration and driver detail searches
- Complete Quick Address Searches
- Navigate the screens and make sense of the data returned
- Complete cross checks from the results of one database to another
- Send data via SMS from one MIU to another
- Suspend and Logoff the MIU unit

Good practice and information on responsible use gleaned from ACPO (TAM) personnel will be shared with the delegate along with future developments for the MIU devices.

Target Audience

APD Communications recommends this course to serving officers of ports and airports plus special branch officers involved in regular stop and search and RTA duties. This is a Police-only course offered by APD Communications.

Pre Requisites

Delegates should have a working knowledge of stop and search operations and be PNC (Read Only) trained before using the MIU on the live database.

Course Detail

This training course is essential to new users of the MIU, trainers, staff or as part of refresher training.

Course duration: 1 day
