

The Overview

This course provides the Police training delegate with sufficient knowledge to update their operational status and responsibly do stop checks and driver detail checks with PNC, DVLA and QAS databases to obtain information regarding the individual stopped.

Objectives

Delegates will be shown to:

- Login and authenticate themselves and others in the vehicle with the system
- Complete individual and multiple PNC searches
- Change Home Office statuses for resources
- Complete vehicle registration and driver searches
- Complete Quick Address Searches
- Navigate screens and understanding returned data
- Complete cross checks from the results of one database to another
- Suspend and Logoff the MDT unit
- Send data via SMS from one POLARIS Mobile Data Terminal to another
- View resource locations (Supervisor function only)

Good practice and information on responsible use gleaned from ACPO (TAM) personnel will be shared with the delegate.

Target Audience

APD Communications recommends this course to police trainers and serving police officers involved in regular stop and search duties. This is a Police-only course offered by APD Communications.

Pre Requisites

Delegates should have a working knowledge of stop and search operations and be PNC (Read Only) trained before using the POLARIS system on the live database.
